Personal Highlights

- Founded a two-story community center in Manchester, NH in 2010 that still operates as a non-profit with a member-elected board and volunteer staff. (They recently used a custom crypto coin issue to raise funds from the community to purchase the building.)
- Implemented an OpenID client & server from scratch in Ruby based on RFCs which is used to authenticate members logging into the community center website.
- Custom door control system using a Raspberry Pi and NFC card, also in Ruby.
